

Subject index

- accomplishments**, Guest editorials, commentaries, challenges, and accomplishments, **97**
- adherence**, A randomised trial of hip protector use by frail older women living in their own homes, **138**
- adolescent**, Childhood and adolescence poisoning in NSW, Australia: an analysis of age, sex, geographic, and poison types, **338**
- adolescent injuries**, Childhood injuries, **292**
- advocacy**, Speed cameras under attack in the United Kingdom, **293**
- aged**, Trends in hospitalization after injury: older women are displacing young men, **214**
- Alaska Native**, Community based program to improve firearm storage practices in rural Alaska, **231**
- alcohol**, Being "at fault" in traffic crashes: does alcohol, cannabis, cocaine, or polydrug abuse make a difference?, **343**
Predictors and severity of injury in assaults with barglasses and bottles, **81**
The new traffic law and reduction of alcohol related fatal crashes in Japan, **382**
- alcohol impaired driving**, Observational study of the extent of driving while suspended for alcohol impaired driving, **133**
- assault**, Buying a handgun for someone else: firearm dealer willingness to sell, **147**
- attitudes to injury prevention**, Injury prevention attitudes and awareness in New Zealand, **42**
- awareness of safety behaviours**, Injury prevention attitudes and awareness in New Zealand, **42**
- balcony**, Childhood injuries due to falls from apartment balconies and windows, **349**
- behavioral theory**, Design and implementation of injury prevention curricula for elementary schools: lessons learned, **274**
- bibliographic databases**, Searching the medical literature, **103**
- bicycle helmet**, Trends in serious head injuries among English cyclists and pedestrians, **266**
- bicycle helmets**, Children's bicycle helmet use and injuries in Hillsborough County, Florida before and after helmet legislation, **177**
- bicycling**, Risk compensation theory and voluntary helmet use by cyclists in Spain, **128**
- bicyclist**, Safety in numbers: more walkers and bicyclists, safer walking and bicycling, **205**
- bone fracture**, Development of a multidisciplinary method to determine risk factors for arm fracture in falls from playground equipment, **279**
- booster seats**, Increases in booster seat use among children of low income families and variation with age, **322**
Lessons for increasing awareness and use of booster seats in a Latino community, **268**
- brain injury**, Evaluation of the ThinkFirst Canada, *Smart Hockey*, brain and spinal cord injury prevention video, **361**
- breath testing**, The new traffic law and reduction of alcohol related fatal crashes in Japan, **382**
- burden of disease**, Childhood injuries, **292**
- burns**, Evaluation of Safe Kids Week 2001: prevention of scald and burn injuries in young children, **112**
No tea until three?, **92**
- car crash injury**, Vehicle year and the risk of car crash injury, **353**
- carpentry**, Nail gun injuries in residential carpentry: lessons from active injury surveillance, **20**
- case-control study**, Association between handgun purchase and mortality from firearm injury, **48**
Seismic, structural, and individual factors associated with earthquake related injury, **62**
Vehicle year and the risk of car crash injury, **353**
- challenges**, Guest editorials, commentaries, challenges, and accomplishments, **97**
- child**, Childhood injuries due to falls from apartment balconies and windows, **349**
Family characteristics and pedestrian injury risk in Mexican children, **58**
Washing machine related injuries in children: a continuing threat, **357**
- child car restraint usage**, An investigation of child restraint/seatbelt usage in motor vehicles by Maori in Northland New Zealand, **85**
- child day care centers**, Evaluation of North Carolina child care safety regulations, **220**
- child fall**, Development of a multidisciplinary method to determine risk factors for arm fracture in falls from playground equipment, **279**
- child health education**, Evaluation of the ThinkFirst Canada, *Smart Hockey*, brain and spinal cord injury prevention video, **361**
- child restraint device**, Examining child restraint use and barriers to their use: lessons from a pilot study, **326**
- child restraints**, Increases in booster seat use among children of low income families and variation with age, **322**
- childhood injuries**, Childhood injuries, **292**
- childhood poisoning**, Childhood and adolescence poisoning in NSW, Australia: an analysis of age, sex, geographic, and poison types, **338**
- children**, Children's bicycle helmet use and injuries in Hillsborough County, Florida before and after helmet legislation, **177**
Discrepancy between actual and estimated speeds of drivers in the presence of child pedestrians, **38**
Identification of risk factors for non-fatal child injury in a rural area: Keokuk County Rural Health Study, **235**
Socioeconomic variation in injury in children and older people: a population based study, **33**
- China**, Productivity losses from injury in China, **124**
- classification**, How much science is there in injury prevention and control?, **89**
- closed circuit television**, Effect of urban closed circuit television on assault injury and violence detection, **312**
- commentaries**, Guest editorials, commentaries, challenges, and accomplishments, **97**
- consumer product safety**, Evaluation of North Carolina child care safety regulations, **220**
Washing machine related injuries in children: a continuing threat, **357**
- crash helmet**, Effect of Italy's motorcycle helmet law on traumatic brain injuries, **257**
- criminal**, Shall-issue policy and criminal activity among applicants for permits to carry concealed firearms, **367**
- cycle use**, Helmet laws and cycle use, **380**
- cyclists**, Missing cyclists, **376**
Trends in serious head injuries among English cyclists and pedestrians, **266**
- developed world**, Safety in numbers: more walkers and bicyclists, safer walking and bicycling, **205**
- disabled children**, Injuries among disabled children: a study from Greece, **226**
- disaster**, Seismic, structural, and individual factors associated with earthquake related injury, **62**
- drink-driving**, The new traffic law and reduction of alcohol related fatal crashes in Japan, **382**
- driver**, Discrepancy between actual and estimated speeds of drivers in the presence of child pedestrians, **38**
- driver's license suspension**, Observational study of the extent of driving while suspended for alcohol impaired driving, **133**
- driveway crush injuries**, Children's response to a commercial back-up warning device, **87**
- driving contract or agreement**, Persistence of effects of a brief intervention on parental restrictions of teen driving privileges, **142**
- driving restrictions or limits**, Persistence of effects of a brief intervention on parental restrictions of teen driving privileges, **142**
- driving while suspended**, Observational study of the extent of driving while suspended for alcohol impaired driving, **133**
- drowning**, Characteristics of drowning by different age groups, **163**
- drugs**, Being "at fault" in traffic crashes: does alcohol, cannabis, cocaine, or polydrug abuse make a difference?, **343**
- DUI**, Observational study of the extent of driving while suspended for alcohol impaired driving, **133**
- DWI**, Observational study of the extent of driving while suspended for alcohol impaired driving, **133**

- elderly**, A randomised trial of hip protector use by frail older women living in their own homes, **138**
Socioeconomic variation in injury in children and older people: a population based study, **33**
- elementary school education**, Design and implementation of injury prevention curricula for elementary schools: lessons learned, **274**
- emergency department**, Effect of urban closed circuit television on assault injury and violence detection, **312**
- epidemiologic methods**, Are mobile speed cameras effective? A controlled before and after study, **302**
- epidemiologic studies**, Risk compensation theory and voluntary helmet use by cyclists in Spain, **128**
- epidemiology**, Seismic, structural, and individual factors associated with earthquake related injury, **62**
- epidural hematoma**, Effect of Italy's motorcycle helmet law on traumatic brain injuries, **257**
- equipment**, Playground injuries, **194**
- equipment use**, Injury and frequency of use of playground equipment in public schools and parks in Brisbane, Australia, **210**
- evaluation**, How much science is there in injury prevention and control?, **89**
Unintentional and undetermined firearm related deaths: a preventable death analysis for three safety devices, **307**
- exercise**, Can we afford to exercise, given current injury rates?, **99**
Sports and recreational injury: the hidden cost of a healthy lifestyle, **100**
- falling techniques**, Can martial arts falling techniques prevent injuries?, **284**
- falls**, Childhood injuries, **292**
Childhood injuries due to falls from apartment balconies and windows, **349**
- farm work**, Farm work practices and farm injuries in Colorado, **241**
- fatal injury**, Unintentional fatal injuries arising from unpaid work at home, **15**
- firearms**, Association between handgun purchase and mortality from firearm injury, **48**
Buying a handgun for someone else: firearm dealer willingness to sell, **147**
Community based program to improve firearm storage practices in rural Alaska, **231**
Impact of handgun types on gun assault outcomes: a comparison of gun assaults involving semiautomatic pistols and revolvers, **151**
Review of evaluations of educational approaches to promote safe storage of firearms, **108**
Shall-issue policy and criminal activity among applicants for permits to carry concealed firearms, **367**
Studying "exposure" to firearms: household ownership v access, **53**
Unintentional and undetermined firearm related deaths: a preventable death analysis for three safety devices, **307**
- focus groups**, Lessons for increasing awareness and use of booster seats in a Latino community, **268**
- geographic locations**, Childhood and adolescence poisoning in NSW, Australia: an analysis of age, sex, geographic, and poison types, **338**
- glassware**, Predictors and severity of injury in assaults with barglasses and bottles, **81**
- government regulation**, Evaluation of North Carolina child care safety regulations, **220**
- graduated licensing**, Nighttime driving, passenger transport, and injury crash rates of young drivers, **245**
- guest editorials**, Guest editorials, commentaries, challenges, and accomplishments, **97**
- gunshot**, Impact of handgun types on gun assault outcomes: a comparison of gun assaults involving semiautomatic pistols and revolvers, **151**
- handgun purchase**, Bias when using dead controls to study handgun purchase as a risk factor for violent death, **381**
- hate crimes**, Violent attacks on Middle Easterners in the United States during the month following the September 11, 2001 terrorist attacks, **187**
- head injury**, Helmet rental practices at United States ski areas: a national survey, **317**
Trends in serious head injuries among English cyclists and pedestrians, **266**
- head injury prevention**, Effect of Italy's motorcycle helmet law on traumatic brain injuries, **257**
- head protective devices**, Risk compensation theory and voluntary helmet use by cyclists in Spain, **128**
- health behavior**, Review of evaluations of educational approaches to promote safe storage of firearms, **108**
- helmet law**, Effect of Italy's motorcycle helmet law on traumatic brain injuries, **257**
- helmet laws**, Helmet laws and cycle use, **380**
- helmets**, Helmet rental practices at United States ski areas: a national survey, **317**
- high school**, Seatbelt use by high school students, **25**
- hip fracture**, A randomised trial of hip protector use by frail older women living in their own homes, **138**
- hip protectors**, A randomised trial of hip protector use by frail older women living in their own homes, **138**
- Hispanic Americans**, Lessons for increasing awareness and use of booster seats in a Latino community, **268**
- hockey**, Evaluation of the ThinkFirst Canada, *Smart Hockey*, brain and spinal cord injury prevention video, **361**
- home duties**, Unintentional fatal injuries arising from unpaid work at home, **15**
- home safety**, Home delivery of an injury prevention kit for children in four French cities: a controlled randomized trial, **261**
Validation of a home safety questionnaire used in a randomised controlled trial, **180**
- home safety practices**, Validity of self reported home safety practices, **73**
- homicide**, Association between handgun purchase and mortality from firearm injury, **48**
Buying a handgun for someone else: firearm dealer willingness to sell, **147**
- hospitalised injuries**, Reporting of the incidence of hospitalised injuries: numerator issues, **370**
- hospitalization**, Trends in hospitalization after injury: older women are displacing young men, **214**
- hot drinks**, No tea until three?, **92**
- ICD-9-CM**, A new approach to the analysis of multiple injuries using data from a national trauma registry, **156**
- immediate care**, Immediate care of school sport injury, **270**
- immersion**, Characteristics of drowning by different age groups, **163**
- imputation**, Bias in estimates of seat belt effectiveness, **91**
- incidence of hospitalisations**, Socioeconomic variation in injury in children and older people: a population based study, **33**
- Indians**, Community based program to improve firearm storage practices in rural Alaska, **231**
- indigenous people**, An investigation of child restraint/seatbelt usage in motor vehicles by Maori in Northland New Zealand, **85**
- induced exposure**, Nighttime driving, passenger transport, and injury crash rates of young drivers, **245**
- injury causes**, Routine narrative analysis as a screening tool to improve data quality, **184**
- injury prevention kit**, Home delivery of an injury prevention kit for children in four French cities: a controlled randomized trial, **261**
- injury severity**, Predictors and severity of injury in assaults with barglasses and bottles, **81**
- intentional injury**, Socioeconomic variation in injury in children and older people: a population based study, **33**
- intervention studies**, Review of evaluations of educational approaches to promote safe storage of firearms, **108**
- interviews**, Identification of risk factors for non-fatal child injury in a rural area: Keokuk County Rural Health Study, **235**
- Japan**, Car seatbelt use during pregnancy in Japan: determinants and policy implications, **169**
New trends in suicide in Japan, **284**
- journal purpose**, Is this journal really needed?, **289**
- journal report**, State of the journal report, **193**
- knowledge**, Injury prevention attitudes and awareness in New Zealand, **42**
- learning theory**, Design and implementation of injury prevention curricula for elementary schools: lessons learned, **274**
- legislation**, Car seatbelt use during pregnancy in Japan: determinants and policy implications, **169**
Children's bicycle helmet use and injuries in Hillsborough County, Florida before and after helmet legislation, **177**

- legislation and jurisprudence**, Shall-issue policy and criminal activity among applicants for permits to carry concealed firearms, **367**
- literature search**, Searching the medical literature, **103**
- low income population**, Increases in booster seat use among children of low income families and variation with age, **322**
- marital status**, Comparison of urban and rural non-fatal injury: the results of a statewide survey, **332**
- martial arts**, Can martial arts falling techniques prevent injuries?, **284**
- Medline**, Searching the medical literature, **103**
- MeSH**, Searching the medical literature, **103**
- Mexico**, Family characteristics and pedestrian injury risk in Mexican children, **58**
- Middle Easterners**, Violent attacks on Middle Easterners in the United States during the month following the September 11, 2001 terrorist attacks, **187**
- misclassification**, Misclassification of seat belt use, **91**
- missing data**, Bias in estimates of seat belt effectiveness, **91**
- morbidity**, Differential ranking of causes of fatal versus non-fatal injuries among US children, **173**
- mortality**, Association between handgun purchase and mortality from firearm injury, **48**
Differential ranking of causes of fatal versus non-fatal injuries among US children, **173**
- motor vehicle crashes**, Injuries and death of children in rollover motor vehicle crashes in the United States, **76**
Motor vehicle crash fatalities by race/ethnicity in Arizona, 1990–96, **251**
Safety in numbers: more walkers and bicyclists, safer walking and bicycling, **205**
Seatbelt use by high school students, **25**
- motor vehicles**, Missing cyclists, **376**
- motorist behavior**, Safety in numbers: more walkers and bicyclists, safer walking and bicycling, **205**
- motorist lobby groups**, Speed cameras under attack in the United Kingdom, **293**
- multiple diagnoses**, A new approach to the analysis of multiple injuries using data from a national trauma registry, **156**
- nail guns**, Nail gun injuries in residential carpentry: lessons from active injury surveillance, **20**
- National Hospital Discharge Survey**, Trends in hospitalization after injury: older women are displacing young men, **214**
- NEISS, National Electronic Injury Surveillance System**, Washing machine related injuries in children: a continuing threat, **357**
- NOMESCO**, Comparison of urban and rural non-fatal injury: the results of a statewide survey, **332**
- non-motorized traffic**, Safety in numbers: more walkers and bicyclists, safer walking and bicycling, **205**
- non-traffic pedestrian injuries**, Children's response to a commercial back-up warning device, **87**
- numerator issues**, Reporting of the incidence of hospitalised injuries: numerator issues, **370**
- occupational fatalities**, Diversity of trends in occupational injury mortality in the United States, 1980–96, **9**
- occupational injury**, Injury prevention: blurring the distinctions between home and work, **3**
- occupational safety**, Nail gun injuries in residential carpentry: lessons from active injury surveillance, **20**
- parenting**, Persistence of effects of a brief intervention on parental restrictions of teen driving privileges, **142**
- passengers**, Seatbelt use by high school students, **25**
- Patricia Fossum Waller**, Patricia Fossum Waller, PhD (1932–2003), **295**
- pedestrian injury risk**, Family characteristics and pedestrian injury risk in Mexican children, **58**
- pedestrians**, Discrepancy between actual and estimated speeds of drivers in the presence of child pedestrians, **38**
Safety in numbers: more walkers and bicyclists, safer walking and bicycling, **205**
Trends in serious head injuries among English cyclists and pedestrians, **266**
- pediatric pedestrian**, Children's response to a commercial back-up warning device, **87**
- physical activity**, Safety in numbers: more walkers and bicyclists, safer walking and bicycling, **205**
- Sports and recreational injury: the hidden cost of a healthy lifestyle, **100**
- playground**, Development of a multidisciplinary method to determine risk factors for arm fracture in falls from playground equipment, **279**
Playground injuries, **194**
- playground equipment**, Injury and frequency of use of playground equipment in public schools and parks in Brisbane, Australia, **210**
- pneumatic nailers**, Nail gun injuries in residential carpentry: lessons from active injury surveillance, **20**
- poison types**, Childhood and adolescence poisoning in NSW, Australia: an analysis of age, sex, geographic, and poison types, **338**
- Poisson regression**, Diversity of trends in occupational injury mortality in the United States, 1980–96, **9**
- polydrug abuse**, Being "at fault" in traffic crashes: does alcohol, cannabis, cocaine, or polydrug abuse make a difference?, **343**
- polytrauma**, A new approach to the analysis of multiple injuries using data from a national trauma registry, **156**
- potentially productive years of life lost**, Productivity losses from injury in China, **124**
- precautionary principle**, Expanding the precautionary principle, **1**
Precautionary principle, **285**
- pregnancy**, Car seatbelt use during pregnancy in Japan: determinants and policy implications, **169**
- productivity loss**, Productivity losses from injury in China, **124**
- program evaluation**, Evaluation of Safe Kids Week 2001: prevention of scald and burn injuries in young children, **112**
- protective devices**, Increases in booster seat use among children of low income families and variation with age, **322**
- public health**, Expanding the precautionary principle, **1**
Washing machine related injuries in children: a continuing threat, **357**
- PubMed**, Searching the medical literature, **103**
- questionnaire**, Validation of a home safety questionnaire used in a randomised controlled trial, **180**
- race/ethnicity**, Motor vehicle crash fatalities by race/ethnicity in Arizona, 1990–96, **251**
- randomized trial**, Home delivery of an injury prevention kit for children in four French cities: a controlled randomized trial, **261**
- recreation injuries**, Sports and recreation related injury episodes in the US population, 1997–99, **117**
- regulations**, Expanding the precautionary principle, **1**
Playground injuries, **194**
- residential construction**, Nail gun injuries in residential carpentry: lessons from active injury surveillance, **20**
- retrospective study**, Injuries among disabled children: a study from Greece, **226**
- reviewers**, Is this journal really needed?, **289**
- risk compensation**, Risk compensation theory and voluntary helmet use by cyclists in Spain, **128**
Seatbelt legislation in Japan: high risk driver mortality and seatbelt use, **29**
- risk factors**, Expanding the precautionary principle, **1**
Family characteristics and pedestrian injury risk in Mexican children, **58**
Identification of risk factors for non-fatal child injury in a rural area: Keokuk County Rural Health Study, **235**
- risk homeostasis**, Is this journal really needed?, **289**
- risk measures**, Unintentional fatal injuries arising from unpaid work at home, **15**
- road safety**, Traffic calming for the prevention of road traffic injuries: systematic review and meta-analysis, **200**
- rollover**, Injuries and death of children in rollover motor vehicle crashes in the United States, **76**
- rural**, Comparison of urban and rural non-fatal injury: the results of a statewide survey, **332**
Identification of risk factors for non-fatal child injury in a rural area: Keokuk County Rural Health Study, **235**
- safety habits**, Design and implementation of injury prevention curricula for elementary schools: lessons learned, **274**
- scalds**, No tea until three?, **92**
- school**, Immediate care of school sport injury, **270**
- screening**, Routine narrative analysis as a screening tool to improve data quality, **184**
- seatbelt legislation**, Seatbelt legislation in Japan: high risk driver mortality and seatbelt use, **29**
- seatbelts**, Bias in estimates of seat belt effectiveness, **91**

- Car seatbelt use during pregnancy in Japan: determinants and policy implications, **169**
- Further reflections on the seatbelt use and effectiveness issue, **284**
- Lessons for increasing awareness and use of booster seats in a Latino community, **268**
- Misclassification of seat belt use, **91**
- Seatbelt use by high school students, **25**
- selective recruitment**, Seatbelt legislation in Japan: high risk driver mortality and seatbelt use, **29**
- self afflicted injury**, Suicide among North Carolina women, 1989–93: information from two data sources, **67**
- self report**, Validation of a home safety questionnaire used in a randomised controlled trial, **180**
- Validity of self reported home safety practices, **73**
- self reported injury**, Injury prevention attitudes and awareness in New Zealand, **42**
- skiing**, Helmet rental practices at United States ski areas: a national survey, **317**
- snowboarding**, Helmet rental practices at United States ski areas: a national survey, **317**
- sociodemographic variables**, Injuries among disabled children: a study from Greece, **226**
- socioeconomic status**, Socioeconomic variation in injury in children and older people: a population based study, **33**
- speed**, Discrepancy between actual and estimated speeds of drivers in the presence of child pedestrians, **38**
- speed cameras**, Are mobile speed cameras effective? A controlled before and after study, **302**
- Speed cameras under attack in the United Kingdom, **293**
- spinal cord injury**, Evaluation of the ThinkFirst Canada, *Smart Hockey*, brain and spinal cord injury prevention video, **361**
- sport**, Can we afford to exercise, given current injury rates?, **99**
- Immediate care of school sport injury, **270**
- sports injury**, Evaluation of the ThinkFirst Canada, *Smart Hockey*, brain and spinal cord injury prevention video, **361**
- Sports and recreational injury: the hidden cost of a healthy lifestyle, **100**
- Sports and recreation related injury episodes in the US population, 1997–99, **117**
- sports utility vehicles**, Injuries and death of children in rollover motor vehicle crashes in the United States, **76**
- statistics**, State of the journal report, **193**
- storage practices**, Community based program to improve firearm storage practices in rural Alaska, **231**
- suicide**, Association between handgun purchase and mortality from firearm injury, **48**
- Community based program to improve firearm storage practices in rural Alaska, **231**
- New trends in suicide in Japan, **284**
- Suicide among North Carolina women, 1989–93: information from two data sources, **67**
- surfacing**, Playground injuries, **194**
- surveillance**, Differential ranking of causes of fatal versus non-fatal injuries among US children, **173**
- Diversity of trends in occupational injury mortality in the United States, 1980–96, **9**
- Missing cyclists, **376**
- Nail gun injuries in residential carpentry: lessons from active injury surveillance, **20**
- surveillance data**, Routine narrative analysis as a screening tool to improve data quality, **184**
- survey**, Comparison of urban and rural non-fatal injury: the results of a statewide survey, **332**
- systematic review**, Traffic calming for the prevention of road traffic injuries: systematic review and meta-analysis, **200**
- teen driving**, Persistence of effects of a brief intervention on parental restrictions of teen driving privileges, **142**
- teenagers**, Nighttime driving, passenger transport, and injury crash rates of young drivers, **245**
- Seatbelt use by high school students, **25**
- terrorist attacks**, Violent attacks on Middle Easterners in the United States during the month following the September 11, 2001 terrorist attacks, **187**
- traffic**, Are mobile speed cameras effective? A controlled before and after study, **302**
- Discrepancy between actual and estimated speeds of drivers in the presence of child pedestrians, **38**
- Nighttime driving, passenger transport, and injury crash rates of young drivers, **245**
- Vehicle year and the risk of car crash injury, **353**
- traffic calming**, Traffic calming for the prevention of road traffic injuries: systematic review and meta-analysis, **200**
- traffic crashes**, Being “at fault” in traffic crashes: does alcohol, cannabis, cocaine, or polydrug abuse make a difference?, **343**
- traffic law**, The new traffic law and reduction of alcohol related fatal crashes in Japan, **382**
- traffic mortality**, Seatbelt legislation in Japan: high risk driver mortality and seatbelt use, **29**
- traffic volume**, Seatbelt legislation in Japan: high risk driver mortality and seatbelt use, **29**
- trauma systems**, Trends in hospitalization after injury: older women are displacing young men, **214**
- traumatic brain injury**, Effect of Italy’s motorcycle helmet law on traumatic brain injuries, **257**
- Helmet rental practices at United States ski areas: a national survey, **317**
- traumatic injury**, Seismic, structural, and individual factors associated with earthquake related injury, **62**
- trends**, Diversity of trends in occupational injury mortality in the United States, 1980–96, **9**
- tribute**, Patricia Fossum Waller, PhD (1932–2003), **295**
- unpaid work**, Unintentional fatal injuries arising from unpaid work at home, **15**
- upper extremity**, Development of a multidisciplinary method to determine risk factors for arm fracture in falls from playground equipment, **279**
- urban**, Comparison of urban and rural non-fatal injury: the results of a statewide survey, **332**
- validation**, Validation of a home safety questionnaire used in a randomised controlled trial, **180**
- validity**, Validity of self reported home safety practices, **73**
- vehicle age**, Vehicle year and the risk of car crash injury, **353**
- violence**, Association between handgun purchase and mortality from firearm injury, **48**
- Buying a handgun for someone else: firearm dealer willingness to sell, **147**
- Effect of urban closed circuit television on assault injury and violence detection, **312**
- Impact of handgun types on gun assault outcomes: a comparison of gun assaults involving semiautomatic pistols and revolvers, **151**
- Predictors and severity of injury in assaults with barglasses and bottles, **81**
- Shall-issue policy and criminal activity among applicants for permits to carry concealed firearms, **367**
- Studying “exposure” to firearms: household ownership v access, **53**
- Violent attacks on Middle Easterners in the United States during the month following the September 11, 2001 terrorist attacks, **187**
- violent death**, Bias when using dead controls to study handgun purchase as a risk factor for violent death, **381**
- weapons**, Predictors and severity of injury in assaults with barglasses and bottles, **81**
- window**, Childhood injuries due to falls from apartment balconies and windows, **349**
- women**, Suicide among North Carolina women, 1989–93: information from two data sources, **67**
- work practices**, Farm work practices and farm injuries in Colorado, **241**
- wounds**, Impact of handgun types on gun assault outcomes: a comparison of gun assaults involving semiautomatic pistols and revolvers, **151**
- wounds and injuries**, Are mobile speed cameras effective? A controlled before and after study, **302**
