

0968 **GETTING YOUR RESEARCH PUBLISHED:
WRITING FOR *INJURY PREVENTION***

B Johnston*, S Ameratunga*, D Blank*, D Kendrick*, B Pless*, F Winston*Correspondence: Injury Prevention – A BMJ Group Journal, 325 Ninth Avenue – Box 359774 Seattle, Washington 98104 USA

10.1136/ip.2010.029215.968

Participants will become familiar with the process of writing for scientific publication, including a discussion of common mistakes, useful resources and strategies to improve the writing process and acceptance rates. Topics to be covered include: Why publish? Identifying the research question, How to write a paper, Using reporting guidelines, Finding mentorship, Common issues in publication ethics, Choosing the right journal. Understanding peer review & editorial decision making. Space and attendance permitting, the format will include a didactic presentation followed by small group discussions and exercises facilitated by some of the most highly published researchers and research mentors in the field.
