[30–39 yrs], 17% [40–49 yrs], 19% [50–59 yrs] and 23% [older than 60 yrs].

**Conclusion** Falls down stairs or escalators is relatively common, in addition to a large percentage of people having a fear or feeling uncomfortable.

**Learning Outcomes** Crowd control at events should include supervisors near stairs or escalators.

**P4.013** **EMPOWERING THE NEXT GENERATION OF SAFETY AMBASSADORS – NATIONAL SAFETY SCIENCE CAMPAIGN**

Naina Urs*, Lakshmi Nair*. Underwriters Laboratories, Bengaluru, India

10.1136/injuryprev-2021-safety.216

**Context** Aligned to SDG 4.7, the National Safety Science Campaign (NSSC) by Underwriters Laboratories in India aims to create a culture of safety in young minds and empower India’s next generation of safety ambassadors.

**Core initiatives**

a. National Safety Science Quiz for grades 8 to 10 is aimed at imparting safety science knowledge.

b. Poster Contest for grades 4 to 7 gives a platform to creatively unleash their thoughts on safety.

c. Safety Impact films for ages 16 to 25 brings highlights the brilliant safety innovations being built by young students.

d. Safer Schools Safer India is for primary level to help them learn about fire safety by following the story of our in-house comic character ‘Bittoo’.

e. Safety clubs for middle schools is based on experiential learning for students to understand the science behind safety.

**Outcomes** Reached close to 57 million people across the country through this campaign.

Over 77,000 children from 2000 schools registered for the competitions in 2019. Safety Impact Films, piloted in 2019, garnered over 200 entries of which the top 5 innovations were chosen. Safety club program, piloted in 2019, saw a participation of 20 schools including 135 teachers and over 2000 students. With the Safer Schools Safer India program we trained 467 teachers and through them reached out to 26,879 students.

**Learnings**

- Need to influence the key stakeholders for safer school ecosystem, build awareness and promote the concept among children.
- A combination of art and science to integrate safety into the curriculum.

**P4.015** **COMMUNITY PREVENTION OF PROBLEMATIC CONSUMPTION ‘FEEL GOOD, ENJOY WITHOUT EXCESSES’**

Nadia Rivera Leinecker*, Faculty of humanities and social sciences. Juyu National University, El Carmen, Argentina

10.1136/injuryprev-2021-safety.218

In Jujuy province, alcohol consumption and acute poisoning are related to massive recreational events. Reducing risks and damage in this context is important.

The ‘FEEL GOOD, ENJOY WITHOUT EXCESSES’ program is a public policy which implements preventive actions articulated with other government departments and society. This program develops processes of care and protection inside recreation spaces, based on two lines: 1) Establish guidelines for responsible consumption and self-care. 2) Reduce risks and damage in nighttime contexts.

**Strategy:** Environmental prevention, advertising of care guidelines, staff training to detect risk; dissemination of protocol of poisoning or health emergency and creation of the health police.

**Application**

- Advertising of care and prevention guidelines.
- Presence of preventive agents for early risk detection.
- Stuff training (bartenders, cleaners, etc).
- Hydration and recovery friendly spaces creation.
- Activation of protocol in intoxication or emergency situations.
- Integrity and security protection in charge of the health police.

**Results** Applied in massive events between the years 2017 and 2019: Carnival (60 hours and 125,000 people) and Student Parties (84 hours and 235,000 people) it was observed:
