

Supplement 1: Confusion matrices for multi-level logistic regressions of predictors and STBs

<b>Model</b>	<b>Predicted absence</b>	<b>Predicted presence</b>
Firearm violence concern predicting SI		
Observed absence	16610	168
Observed presence	7638	179
Firearm violence concern predicting SA		
Observed absence	23997	0
Observed presence	505	0
Daytime campus safety predicting SI		
Observed absence	16474	163
Observed presence	7592	186
Nighttime campus safety predicting SI		
Observed absence	16417	185
Observed presence	7499	263
Daytime surrounding area safety predicting SI		
Observed absence	16239	380
Observed presence	7377	386
Nighttime surrounding area safety predicting SI		
Observed absence	16246	378
Observed presence	7349	415
Daytime campus safety predicting SA		
Observed absence	23822	0
Observed presence	500	0
Nighttime campus safety predicting SA		
Observed absence	23771	0
Observed presence	499	0
Daytime surrounding area safety predicting SA		
Observed absence	23792	0
Observed presence	496	0
Nighttime surrounding area safety predicting SA		
Observed absence	23794	0
Observed presence	498	0
