

Appendix A1: Screening Education Pre-survey

AA A
 [+] [-]

Pre-Survey

The following survey questions are meant to assess your attitudes and knowledge about Firearm Injury and Mortality Prevention (FIMP). Your answers will help us evaluate and improve our educational content. Your responses are confidential. This survey is voluntary and should take no more than two minutes to complete. We greatly appreciate the time you are taking to respond.

Please select the best response for each statement.

	Strongly Disagree	Disagree	Neither Disagree nor Agree	Agree	Strongly Agree	
Firearm injury and mortality are public health issues	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	reset
I have a good understanding of <u>firearm injury and mortality risk</u>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	reset
Screening for <u>firearm injury and mortality risk</u> can lead to improved patient outcomes	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	reset
I am confident I can screen my patients for <u>firearm injury and mortality risk</u>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	reset
My interaction with a patient can make a difference regarding their <u>firearm injury and mortality risk</u>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	reset
There are community resources available to refer patients to reduce <u>firearm injury and mortality risk</u>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	reset
Implementing screening and brief intervention for <u>firearm injury and mortality prevention</u> will disrupt clinical workflow	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	reset
I am familiar with the "<u>5 L's of Firearm Safety</u>"	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	reset
I am familiar with strategies for <u>firearm injury and mortality prevention</u>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	reset
I am confident my site can implement strategies for <u>firearm injury and mortality prevention</u>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	reset

Appendix A2: Screening Education Post-survey

Post-Survey

The following survey questions are meant to assess your attitudes and knowledge about Firearm Injury and Mortality Prevention (FIMP). Your answers will help us evaluate and improve our educational content. Your responses are confidential. This survey is voluntary and should take no more than three minutes to complete. We greatly appreciate the time you are taking to respond.

1) What was the most important concept(s) you learned during this educational session?

Expand

2) What important concept(s) do you have questions about or find confusing?

Expand

3) What is realistic to focus on and to apply to your current role?

Expand

4) What suggestion(s) do you propose in order to improve the quality and efficiency of this experience?

Expand

Please select the best response for each statement.

	Strongly Disagree	Disagree	Neither Disagree nor Agree	Agree	Strongly Agree	
5) <u>Firearm injury and mortality</u> are public health issues	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	reset
6) I have a good understanding of <u>firearm injury and mortality risk</u>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	reset
